Hardy Mums

Sims

MAGIC MUMS

Dwarf Growing Cushion Type

AURORA. Double, blood-red, low, compact blooms mid-August until frost. Grows 18 inches tall.

ORCHID HELEN. Orchid-pink flowers on dwarf growing plants. Masses of double blossoms from early September on.

PEARL PARKINSON. This lovely golden flushed red Mum starts blooming in midsummer and later blooms bright red with yellow shading.

OLIVE LONGLAND. Large, double flowers of soft apricot tones with salmon tints.

CANDLELIGHT. Fine double, ivory-white, well formed flowers. September on.

RED RIDING HOOD. Masses of bright red blooms from early September on. Low growing, and very compact.

Magic Mums

HARDY MUMS

We have selected for you varieties that we think are outstanding for vigor, growth and color. Mums are easy to grow and require little care. They add to your garden a wealth of colorful beauty.

SUNAPE. Clear canary-yellow, early Pompon type.

AUTUMN LIGHTS. Coppery orange flowers, large bushes covered with hundreds of blossoms.

WHITE TOWER. Tall growing variety; large, creamy white flowers with yellow centers.

SKY TRAIL. Early large bush type, purplish red blossoms.

POWDERPUFF. Snowy white, hundreds of blossoms on low growing bush.

MOST ITEMS ARE POSTPAID TO YOU

To save you additional money, we pay postage on most items. You will find these items so listed in our 1955 catalog. However, some items listed are too large to send by parcel post, such as large fruit trees, shade trees and blooming size shrubs.

Also there are a few ornamentals and hedging, and some berry plants that we list at such low prices for the high quality stock, it is impossible for us to pay the transportation charges. We send these transportation charges collect.

Some orders include large size trees, that have been sent express collect, and also some items that would ordinarily go postpaid. In order to avoid making 2 shipments, so that your stock will reach you at one time, we ship the whole order express; for this privilege we will include extra stock, our selection, to fit in with the items on your order, that have a greater value than the transportation charge.

**10% Discount On All Orders
Before MARCH 1st.**

TO HELP YOU FREE PLANTING GUIDE

We send you **FREE**, a planting guide with every nursery order. It tells you in a simple, easy-to-understand way how to plant, even if you have had no experience, so by following these simple directions, you will be insured success with all your planting. It gives the following instructions:

General care: Pruning; Watering; Fertilizing, etc.

Chipman's Canada Red

Sims Guarantee To You

We **GUARANTEE** everything to reach you in perfect growing condition. If for any reason this stock is damaged or does not come up to your expectations or if there has been a mistake in your order, if you will notify us within 5 days, we will replace damaged items **FREE**.

Each year we spend many thousands of dollars giving nursery stock the very best of care, with the most modern methods. Therefore we are reasonably sure our stock will grow and live. However, occasionally the very best of stock fails to grow, because of local soil, weather and care conditions, which are beyond our control.

We want each of our customers to be more than satisfied. Therefore, if you have a loss of stock and will notify us before July 1st, we will replace the following year at one-half price.

Sims further **GUARANTEES** everything to be true to name, as described in this catalog. If found to be otherwise, we will replace free on due proof of untruthness. We will not hold ourselves liable for any amount greater than the original amount of purchase price.

BOHEMIAN HORSERADISH

Best of all Horseradish. Easy to grow. Thrives on any garden soil. Fine relish for meats, and salads, and an appetizer. Crowns make large roots in one year; should be planted in every garden. Large crowns, each 15c; 12 for \$1.50.

SIMS APPLE TREES

Producers of Highest Quality Fruit—Proven Money Makers

RED ROME BEAUTY

A clear, bright all red Apple, with a tough, smooth skin, which makes less bruising and also one of the best winter keepers. Its snowy white, fine grained flesh makes Red Rome very desirable for eating fresh or cooking. Trees are very young vigorous growers, producing heavy annual crops.

SIMS SCARLET STAYMAN WINESAP

The Apple with the flavor boost, a scarlet-red sport of the very popular Stayman Winesap Apple, which has gained favor with orchardists throughout the country, because of its bright scarlet color attained several weeks earlier than regular Stayman. The fruit has an even more pronounced, spicy, juicy flavor than the regular Stayman. Many leading fruit growers report from every section of the country, Red Stayman to be outstanding in color, tree vigor, size of fruit and heavy bearer.

BEACON

One of the newer, earlier fall varieties; ripens two weeks ahead of Jonathan. Bright red in color. In heavy demand by commercial orchardists because of early ripening date and being very similar to Jonathan in quality and flavor, it is being accepted on all markets.

BOUGH SWEET

Large, pale yellow, very sweet and good to eat out of hand, also fine for preserves. Holds its shape after cooking. Tree strong grower and good bearer. Ripens in August.

DOUBLE RED DELICIOUS

The Answer to Apple Growers' Dreams

The Double Red Delicious was introduced several years ago, and has gained more popularity each year since it was introduced. It has the same high quality and flavor as the regular Red Delicious, but colors several weeks earlier, thereby enables the grower to pick when fruit is firm, and market is at its best. Be sure to enclose an order for Double Red Delicious in your planting this season.

YELLOW DELICIOUS

The best and most popular of all yellow Apples. Golden in color, quality, and value. One of the best for pies, sauce, or eating fresh. It is tops as a commercial Apple because of its good storing qualities, and being readily accepted on all markets. It excels all varieties in young bearing and heavy annual production.

WOLF RIVER

An old variety of exceptional cooking qualities. Very large, somewhat flat in shape, greenish yellow with a bright red blush. Trees bear very young; heavy annual crops. Wolf River's large size makes it sell well on the market.

YELLOW TRANSPARENT

The Famous Early Apple

The leading early cooking Apple of the nation. Accepted by growers and housewives alike to be the yardstick by which all early Apples are judged. Tree is an upright grower; very hardy, young bearer. Fruit medium to large with sub-acid flavor.

CHAMPION (Summer)

This is truly a champion of quality, cooking, eating, shipping and storing. Large size greenish yellow with red blush. Bears large crops each year. Always tops the market.

Red Rome Beauty

Beacon

Yellow Delicious

Orchard Tested

Set Them for
Pleasure and
Profit

✓ **WILLOW TWIG RED** (New Improved Strain)

A new selected sport of Willow Twig of a larger size, very uniform and symmetrical, and unexcelled in color. Keeps in storage until May without scalding or breaking down.

✓ **SIMS DOUBLE RED JONATHAN** **KING OF ALL RED APPLES**

A sport of the famous Red Jonathan Apple. The same juicy, spicy high quality flavor as the regular Jonathan, but attains a deep red color at least 2 weeks earlier in the season. The high color making them very desirable for either home or commercial planting. Trees bear young and are very productive and long lived.

✓ **BLACK BEN DAVIS**

Sims Scarlet Red strain attains an all-over red color earlier than regular Black Ben, with fruits as large or even larger. Trees produce heavy annual crops. It is classed with the best of all winter keepers, and is accepted on all markets.

Willow
Twig
Red

✓ *Mammoth* **MAIDEN BLUSH**

An old favorite that still holds its own among commercial orchard men. Although it was introduced many years ago, it is one variety that has been studied and tested. Many varieties have been tried and discarded. But Maiden Blush is still a leader. Maiden Blush is golden yellow with a red blush. It ripens in midsummer and cannot be beat for pies, sauce or canning. The strain of Maiden Blush we now offer is selected from an old Maiden Blush orchard. The founder, John W. Sims, planted it many years ago, and it is much larger than the common Maiden Blush.

Double Red
Delicious

Maiden
Blush

Anoka

Lodi

Wealthy

✓ **ANOKA—The Old Folks' Apple**

Usually bears a light crop the following year after planting. The second year you will get a full-sized crop of fine Apples. It is one of the earliest varieties grown. Fruit is large, well colored and of excellent flavor.

✓ **LODI**

New Large Transparent

A new hybrid Transparent was recently released by the New York Fruit Testers Association. Lodi in our orchard has proven to be one of our best early Apples both from the standpoint of young bearing and high quality. Readily accepted on all markets to be a superior early Apple. One of its qualities is its ability to stand handling and shipping without bruising, because of its firm flesh and tough skin. Plant Lodi for home use, roadside markets, or long distance shipment.

✓ **WEALTHY**

A big red-striped Apple. Has been a favorite for years, and is classed with the best summer Apples. Extra good shipping and keeping qualities. Its hardiness of tree and ability to stand cold climates, and young bearing habits make it accepted in North as well as South.

CRAB APPLES

✓ **HYSLOP CRAB**

The best late fruiting Crab for pickles, preserves and jelly. Lovely pink ornamental blooms.

✓ **VIRGINIA CRAB**

A fine quality small red Crab Apple. Ripens midseason. One of the very hardiest. Apples often used as understock because of its unusual hardiness.

✓ **HIBERNAL**

Fruit of very ordinary quality, one of the hardiest, thriftiest growers, because of its Siberian origin. Recommended for understock in top-working weaker varieties. If you have had trouble with short lived trees due to winter injury, collar rot, sun scald, etc., try Hiberna or Virginia Crab. You will be well paid for your extra work, because of younger bearing, longer lived trees.

SIMS TREES ARE:

Guaranteed true-to-name, propagated right, grown right, packed right. Guaranteed to reach you in the best condition to start growth.

SIMS SELECTED PEAR TREES

Tested Varieties, Easy to Grow

✓ **ORIENT** — *Blight Resistant*

A new introduction from Tennessee Experiment Station which has proved to be blight and leaf spot resistant at Knoxville orchards.

The trees are large, vigorous, which grow with open centers and require little pruning to produce good yields. Blooms several days later than Kieffer. Fruit ripens in mid-August at Knoxville and averages large. Skin thick, tough and rather rough. Flesh is creamy white with good texture, mild in flavor. The fruit keeps well in storage.

✓ **KIEFFER** — *Hardest and Best Keeper of All*

Of all the Pears, Kieffer is a leader, because of its hardness and its ability to adapt itself to a wide range of soil and climatic conditions; from the southern-most states to Canada, Kieffer is a leader.

Kieffer rates tops in keeping quality. No other Pear can compare with Kieffer when stored in common or cold storage. The fruit is very large in size, golden yellow with a slight red cheek, very juicy. You won't go wrong planting Kieffer.

Orient

✓ **LINCOLN** — *Highest Quality, Blight Free*

Lincoln is recognized everywhere to be one of the best flavored, easy to grow, hardest Pears. It is almost free from blight. Bears very young. Tremendous crops of golden yellow fruit when full ripe. Compares in flavor and quality to Bartlett. Readily accepted on all markets as a canning and dessert Pear. Ripens in mid-August.

✓ **BARTLETT** — *The Delicious Eating Pear*

One of the very best canning, eating and marketing Pears. Sweet, tender, juicy flesh with an aroma and flavor equalled by none. Bartlett will sell on any market, even when the other varieties are not in demand.

Tree is a fast, upright grower, bears young and abundantly. Does best on fertile soil, under best cultivated conditions; one or two Bartlett trees will furnish plenty of fresh fruit for the family and surplus for canning and preserving.

Seckel

✓ **SECKEL** — *The Honey Pear*

The little Sugar Pear everyone knows. Borne in clusters every year. Delicious honey-sweet melting flavor, wonderful for fresh use. They are also very good for pickles or preserves. Tree hardy, semi-dwarf, bountiful annual bearer.

SIMS PLUM TREES

Plant More Plum Trees For Future Profits

**We offer Those of Recent Introduction,
And Improved Strains of Popular Varieties**

Stanley
Prune

**10% DISCOUNT
On All Orders
Before March 1st**

STANLEY PRUNE — *Extra Young Bearing*

Sweet golden flesh, freestone, beautiful purple-black skin, overlaid with rich bloom. Ripens 10 days ahead of most other Plums. Firm, does not crack, excellent quality for local or distant markets. Can be counted on to produce heavy crops every year. We recommend Stanley in commercial plantings. Stanley is one of New York Experiment Station's prize Plums.

UNDERWOOD — *The Aristocrat of the Plum Orchard*

The fruit is heart-shaped, very large, firm flesh, can be shipped to distant markets. Always demands high market price in its season. Never fails to bear full annual crop regardless of extreme winter temperatures or late spring frosts. Underwood is a late introduction, and has gained wide popularity both as a home orchard and a commercial variety. Tree is a very vigorous grower with healthy disease-resistant foliage that is often lacking in some of the better quality Plums.

GREEN GAGE — *Yields - Quality - Flavor*

Extra large, roundish shape; golden yellow when full ripe; freestone. Has a sweet, tart flavor all of its own. The strain of Green Gage we propagate we believe to be far superior to any

other, because of extra size, and being a perfect freestone. Tree is very vigorous, being semi-dwarf. Blossoms are self-unfruitful and should be set with other Plums to secure highest yields.

Green
Gage

SAPA — *Hardy Hybrid Plum*

A hardy Plum of northern origin that does equally as well in all parts of the country. Often sold in the North as Cherry Plum. Medium maroon-red fruit, colored all the way through, size will average somewhat larger than the Damsons. This fruit always sells well because of its high quality, pronounced Plum flavor, which puts it at the top of the list for canning, pies, jellies and sauce.

SIMS BLUE DAMSON — *Improved Freestone*

Midseason improved Blue Damson, a sport of Shropshire Damson, found in one of our orchards. We believe this to be superior to all other strains of Damson fruit. Medium size, dark purple, best for preserving or jellies. Tree healthy, vigorous grower and will bear annual crops in nearly all types of soil and climatic conditions. Every home should have two or three of this variety in their garden, back yard or poultry yard.

ABUNDANCE *Delicious Table Plum*

Hardy Japanese variety free from black rot. Early ripening, large pinkish red with yellow flesh. Very sweet and unusually delicious flavor. Adapts itself to a wide range of soil and climatic conditions.

SIMS PLUM TREE PRICES

| | Each | 10 or More Each |
|----------------------------|--------|--------------------|

| 11/16 in., 5-6 ft. | 1.85 | 1.65 |

SIMS APRICOT TREES *For Heavy Production*

SIMS NEW VICTORIA GIANT — *Quality, Flavor, Productiveness* Our own new introduction. Very hardy, late bloomer, escapes the late spring frosts. Bears heavy crops when only two or three years old. Large as small oranges, deep yellow bluish, with red color; freestone. In all our years of fruit growing we have never seen any Apricot with as fine a quality. Be sure to include one or two trees with your order. Victoria will surpass your wildest dreams of Apricot perfection.

SUPER APRICOT — *Popular Everywhere*

Fruit beautiful, light salmon color, very good quality. Trees are large, very thrifty, hardy and extremely productive. Rated by most commercial growers as the best, most widely planted variety. Because of their firm, solid fruit, which makes them ideal for shipping, and because of excellent flavor, they are accepted readily on all markets.

SIMS APRICOT PRICES

| | Each | 10 or More Each |
|----------------------------|--------|--------------------|
| 7/16 in., 3-4 ft. | \$1.35 | \$1.10 |

New Victoria Giant

Belle of
Georgia

Grow Quick and Bear Young **SIMS** Orchard Tested

↘ **BELLE OF GEORGIA** *Best White Freestone*

The Queen of flavors. Best white midseason freestone. Color creamy white with a bright red cheek. Ripens a day or two before Elberta. There are very few commercial orchards that do not have a good sized block of "Belles" in them, even though they do not grow any other white Peaches. Experience has shown them to be of high quality and a money maker. In demand on all markets because it is no doubt the finest, best quality white Peach of its season. Like most white Peaches, Belle of Georgia is hardy in the bud. Will stand colder temperatures than other varieties and are self-pollenizers. Be sure to include Belle of Georgia whether your orchard is home or commercial.

THE FAMOUS ELBERTA *Sims Improved Strain*

The Peach that sets the standard by which all varieties are judged. It still reigns supreme with housewives, shippers, and retailers. A large size freestone, rich yellow blushed with red. Rich flavored. Extra firm with fine texture. No doubt the leading shipping, canning, storing, drying and freezing Peach. Elberta is a self-pollenizing variety and a good pollenizer for other varieties. Ripens about the middle of August. Trees are vigorous growers and usually bear the second or third year with enormous crops at maturity.

Note: We have one of the best strains available anywhere at any price.

↘ **EARLY ELBERTA** *Our Own Bud Selected Strain*

Most attractive Peach. This strain of Early Elberta has a more pronounced red blush and a trifle larger oval-shaped fruit than any other Early Elberta we have seen. Solid flesh, honey-sweet. A large yellow freestone with a bright red blush. A vigorous grower bearing young and tremendous crops. Self-pollenizing. Ripens first part of August—five to seven days before Elberta. Some of this fine strain should be included in every commercial or home planting.

Early
Elberta

Hale-Haven

↘ **SNYDER ELBERTA**

The new light yellow Elberta that made Southwest Missouri famous. Ripens just before Elberta. Light yellow with red blush, wonderful flavor, even firmer and better shipper than Elberta. Limited supply. Order early.

↘ **J. H. HALE**

One of the big selling Peaches which never loses its popularity. Richly flavored, fine textured golden yellow flesh. Skin is bright yellow, deeply blushed with red, and nearly fuzzless. Extra large, round, uniform in size. Always sells at top prices for fancy eating and canning. Ripens with Elberta. Hardy as Elberta and is freestone. Semi-fertile—plant a good pollenizer every third row.

↘ **FAIR BEAUTY**

Ripens 10 days before the Elberta. Large, yellow Peach with a beautiful red cheek. Can be hauled several hundred miles to market. It ripens at the time when highest prices are paid for Peaches. You won't go wrong on this variety. Semi-cling.

↘ **DIXIRED**

Medium size, yellow clingstone. Flesh firm but melting; good flavor. Acquires its attractive red blush long before it is ready to pick. Promising early shipper.

PEACH TREES

Pay Big Dividends

REDHAVEN

*Earliest, Dazzling, All-Red, Self-Pollenizing
Peach—Quality Unsurpassed*

Redhaven matures very early, about a month before Elberta. Fruit medium in size, of slightly elongated shape, and almost completely covered with a brilliant red color. Skin is smooth and tough. Flesh yellow, firm, fine textured, sweet, and of good quality. A perfectly fertile variety and freestone. It is safe to classify Redhaven as the outstanding early Peach of tomorrow. Be the first in your locality to possess this rare and most profitable variety.

HALE-HAVEN — Sims Original Strain

A magnificent cross between the wonderful quality of J. H. Hale and the hardiness of South Haven. Wonderful size and color, and shipping qualities; hardy in bud and a vigorous tree. A profit-making variety you cannot afford to overlook. Ripens August 1st.

MAMMOTH WHITE HEATH CLING Best Strain of the Well Known White Cling

Fruit tender, melting, juicy, luscious, firm. Does not bruise easily. Tree is strong, vigorous grower. Like most white Peaches it is hardy and buds will stand lower winter temperatures. Ripens about forty days after Elberta. A wonderful Peach for canning, pickles and preserves. A few should be planted in all home and commercial orchards. Fine for local market and roadside stands.

NEW TRIOGEM

Another good early yellow, large freestone, recently introduced by the New Jersey Experimental Station. Yellow overlaid with deep red. Solid, good shipper. We have tested this variety and have found it one of the best. Always brings top prices on the market, because it ripens a few days earlier than Hale-Haven. Limited supply. Order early.

GOLDEN JUBILEE — What a Peach

Golden Jubilee has everything hoped for, for so long. Commercial Peach orchardists for a century have been looking for an early Peach of high quality, fine flavor, firm texture, yellow freestone.

Red-
haven

CHAMPION

By popular demand we restore this variety to our list because of demand for a fine white Peach in this season. The fruit is large, quite regular, yellowish white mottled with red on sunny side; flesh white with red at pit. Very hardy. Freestone.

NEW FAIRHAVEN

The new Fairhaven Peach is a cross between J. H. Hale and South Haven, so can't help but be a winner. It has earliness, great fruitfulness, hardiness, flavor, shipping quality, beauty of form, and wonderful color. It ripens about one week before Hale-Haven.

Fruit larger than Hale-Haven or Redhaven, even when heavily loaded. Shape nearly round. Color bright golden with attractive bright red cheek. Skin smooth and very tough. Ships exceedingly well.

New Fairhaven

SIMS HARDY NUT TREES

Serve a Dual Purpose - Fruit and Shade

CHINESE CHESTNUT

New Chinese Chestnut proven blight resistant.

Wonderful new strain, hardy, prolific bearer, fine flavored sweet nuts. Larger than the American variety. Trees grow to about the size of an Apple tree. Long lived, start bearing second year after planting.

| | | |
|---------------------------|--------|--------|
| | Each | 2 |
| 2 to 3 ft. branched | \$2.00 | \$3.75 |

STUART PECAN — (Paper Shell)

Hardest of the paper shell variety. Comes nearer to being well adapted to all sections of the country than any other. Nut is large, long, thin shelled, of excellent quality. Tree is very ornamental and of rapid growth. A profitable variety for commercial planting.

| | | |
|-----------------|--------|--------|
| | Each | 2 |
| 3 to 4 ft. | \$2.65 | \$5.00 |

Chinese Chestnut

Thomas Black Walnut

THOMAS BLACK WALNUT

Improved, grafted Black Walnut which is giant size and kernels come out in halves. Thomas is a fast grower and produces the largest nuts. It bears very young, usually next year after planting. A mature tree will produce 15 to 40 bushels. The thin shell nuts of an immense size crack easily, meats are of delicious flavor and tree will grow anywhere.

| | | |
|-----------------|--------|--------|

| | Each | 5 |
| 2 to 3 ft. | \$1.25 | \$4.95 |

Hazelnuts

Hardy ENGLISH WALNUTS

It has only been in recent years that these Hardy English or paper shell Persian Walnut trees have been available. These trees grow in many parts of the world; the hardest being found in Poland and the Northern Carpathian mountains where the temperatures drop to much below zero. We list the Carpathian variety. In Canada, where our trees had their source, this variety has been a very heavy producer and thousands are now growing in many of the northern states.

SIMS GRAPE VINES

Better Bearing Crops of Better Fruit

In planting Grapes you make an investment that will last a lifetime. Our plants are all heavy rooted disease free stock.

CONCORD

Most popular and widely planted variety; will adapt itself to almost any climatic or growing conditions. Large compact bunches, purplish black with a rich bloom; skin is tender but sufficiently firm to carry to distant markets. The old favorite for juice, wines, and jellies.

NEW FREDONIA

Large early Concord type Grape. An introduction of the New York Experimental Station. A strong, healthy grower. Have large full clusters of firm berries. Fine shipper. Does not weather-crack in vineyard.

MOORE'S EARLY

Ripens 10 days before Concord; fancy black-purple table Grape resembling Concord in appearance but of finer quality; not quite as thrifty a grower as Concord.

NIAGARA

White midseason; best of the white varieties. Bunches of large white-greenish berries changing to pale yellow when ripe; a heavy grower and sure cropper. Very popular with commercial growers and home gardeners.

CACO - RED

Beautiful large bunches crowded with big, juicy, amber-colored fruit of a very delicious sweet flavor. Rapid, strong grower, bearing young and heavily. Hardy red Grape; ripens before Concord.

Downing

Black Tartarian

BLACK TARTARIAN

Best Commercial Sweet

Beautiful lustrous black fruit, when ripe. Matures to large delicious firm fruit that ripens early in the season. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollinizer for other varieties.

SIMS GOLDEN SWEET

A selected strain of yellow Sweet Cherry, mellow honey-sweet flavor. Delicious for canning and preserving.

SIMS CHERRY TREES ORCHARD PROVEN

We are offering only those varieties we know to be heavy producers, and money makers.

LARGE IMPROVED MONTMORENCY

Ripens late June. Trees bear young, often two years after planting. Fruit bright clear red with sweet acid flavor, a very popular commercial variety, fine for market, home canning and preserving.

EARLY RICHMOND — A Larger Strain

Ripens early in June. Earliest of sour Cherries. Medium dark red in color; sub-acid, juicy flavor, excellent for early canning; and a dependable cropper. All our early Richmond trees are propagated from a parent tree of exceptional quality.

Improved Montmorency

ROYAL DUKE

Large, bright red, even larger than our Large Montmorency. Sure cropper, excellent quality for home or market, one of the best. Be sure to include one with your order.

WOEHRMAN RED GIANT

The Superior Sweet Cherry

Large, dark bright red, honey-sweet, fruit ripens midseason. Bears heavy annual crops, on vigorous, upright growing tree. This Cherry is sold exclusively by SIMS, and is accepted by all as a superior Sweet Cherry. Blossoms are self unfruitful and trees should be set with Tartarian and Golden Sweet as pollinizers. Add 25c more per tree for Woehrmann Red Giant.

Giant Blueberries

**GROW THEM IN YOUR GARDEN
GROW THEM COMMERCIALY NOW**

For a big money-making crop, these giant size, dark-blue Blueberries are without equal. No other fruit bears more abundantly and requires so little care. Even a few bushes will provide the average family with enough fruit all season for fresh desserts and pies, and for canning and freezing.

Blueberries start to bear the third year, increasing in productiveness until the tenth. Our healthy, vigorous plants never fail to yield enormous crops of top quality fruit. Blueberries keep well on the bush and after picking; they retain their firm quality and rich blue color even when shipped long distances. You always get a big return on your investment when you plant Blueberries.

RANCOCAS. Early. The Rancocas variety of Blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early.

RUBEL. Late. This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit.

Blueberries

Sims Outstanding RED RASPBERRIES

THRIFTY GROWERS AND INCREASED PROFITS

INDIAN SUMMER — Two Crops in One Year

The giant everbearing Red Raspberry. Indian Summer bears a full crop in June and another in fall. The berries are long, deep, large and red—small cavity. Very rich in flavor. Plants grow tall, are hardy and thrifty. In production they will equal the best. Firm enough for shipping.

SUNRISE Extra Early, Extra Quality, Extra Profits

The extra early Red Raspberry. Here in North Missouri ripens earlier than any other Raspberry—about two weeks before Latham—which always insures the highest market prices. U. S. Department of Agriculture says of Sunrise: "Of most importance from the standpoint of the practical grower, perhaps are the hardiness and resistance to disease of the plants, the earliness and large size of the berry." Top the market with Sunrise.

Latham

SIMS PURPLE RASPBERRIES

The New Hybrid Raspberry

SODUS is a cross with the Black and Red Raspberry. New Purple Raspberry introduced recently by the New York Experimental Station. Hardier and thrifter grower than either Black or Red Raspberries, and the fruit surpasses either in flavor. Perhaps the largest Raspberry grown. Often twice or three times as large as Blackcaps. Extra heavy bearer with long picking season. Never shows winter injury in the most severe winters. The color is a deep reddish purple with a rich bloom.

Bristol

BRISTOL BLACKCAP

This new variety is rapidly growing in popularity as the best midseason Blackcap, both for home and commercial planting. A vigorous grower that produces tremendous crops. The berries are large, jet-black, firm, sweet, almost seedless and of unsurpassed flavor. A hardy, healthy grower, does well over a very wide territory, doing well even in sections of the South like Oklahoma.

DISEASE FREE

All our Raspberries have been twice state inspected for disease. For increased production, plant only disease-free plants.

Sims BLACK RASPBERRIES

**One of the Most Popular Small Fruits
Plant Them for Increased Production**

✓ CUMBERLAND — *The Universal Favorite*

Most popular Blackcap. Its record has come down through the years, and it is recognized everywhere as the best and one of the most profitable Blackcaps. Endorsed and grown as the leader everywhere. The plants are healthy, vigorous growers, throwing out stout, well-branched canes that produce immense crops of beautiful, glossy fruit. The fruit is large and firm, and will carry to distant markets in good condition. Rated as one of the most delicious Blackcaps. Midseason.

✓ NEW MORRISON

Mammoth Midseason Blackcap

A lustrous black color. This black beauty is King of all midseason Blackcaps. This variety originated in Ohio and the original planting, which is 15 years old, is disease-free and still produces heavy annual crops. Morrison has everything ever hoped for in a Black Raspberry: Large size, firm, solid fruit, thrifty grower, disease resistant canes, and fruit so attractive that these berries sell on sight. You will make no mistake in setting Morrison whether for home or market.

NEW EBONY KING

GUARANTEED TO BEAR

IT'S FERTILE — IT BEARS

Ebony King is a new Blackberry, exceptionally large. They are very sweet and have the wonderful sweet Blackberry flavor. Ebony King ripens about ten days earlier than Eldorado. The bushes are upright with very strong canes, being able to hold up a heavy crop without breaking down. Best of all it is completely fertile, it bears fruit, large clusters of it on every bush. Ebony King has ability to adapt itself to poor soil, and most drought conditions.

Spring Glory

Buddleia

SIMS NEWER COLORFUL ARISTOCRATIC SHRUBS

SPIREA, ANTHONY WATERER

A crimson flowered, dwarf variety, makes low compact bush, never getting higher than 24 inches. Is used for low work such as putting in front of larger plants for border. Is covered with red blossoms, very attractive plants.

| | | |
|---------------------------------|--------|--------|
| | Each | 3 |
| Heavy 12 to 18 in. plants | \$0.90 | \$2.50 |

MAGNOLIA SOULANGEANA

The most popular, hardy Magnolia. One of the first trees to bloom in the spring. The delightful, fragrant blossoms appear before the leaves. Blooms are large, often measuring 8 inches across, purple-pink on the outside and white on the inside. Foliage is an attractive shiny green. Dwarf growing.

| | |
|-------------------|--------|
| | Each |
| 12 to 18 in. | \$1.75 |

Magnolia Soulangeana

FORSYTHIA, SPRING GLORY

New Spring Glory Forsythia far superior to the old fashioned sorts, being much more showy. It blooms younger and earlier in the season, with a mass of brilliant large yellow flowers covering its slightly drooping branches, makes a beautiful display in early spring.

| | | | |
|--------------------|--------|--------|--------|
| | Each | 2 | 4 |
| 2-Yr., Heavy | \$0.85 | \$1.60 | \$3.10 |

BLUE MIST (Caryopteris)

The lovely new Blue Spirea. A cloud of fringed powder-blue flowers cover the low rounded plant in August through fall, and are fine for cutting. The graceful mound grows only about 2 feet tall; fine foliage is silvery green. A splendid, new, hardy plant for the flower border, or for foreground of shrub plantings.

| | |
|--------------------|--------|
| | Each |
| 2-Yr., No. 1 | \$0.95 |

Blue Mist

BUDDLEIA - The Summer Lilac

Often called BUTTERFLY BUSH because of their attraction to butterflies. We consider these the finest of the new varieties. Plant several in your shrub or flower garden, as their richly colored, fragrant blooms come at a time when flowers are scarce and they last a long time. Colors: royal red and lavender-pink.

| | |
|---------------------------|--------|
| | Each |
| 2-Year Large Clumps | \$0.95 |

Pink Snowball

FRAGRANT PINK SNOWBALL

(Viburnum Carlesi)

In spring this shapely shrub is completely covered with blooms so fragrant they perfume the entire yard. Flowers open light pink, becoming white. A perfect shrub, 5 to 6 feet tall and just as wide. Deep green foliage colors bronzy red in fall. Very hardy, grows in full sun or part shade. Planted from coast to coast. Makes a magnificent specimen and very attractive in any shrub planting.

| | |

SIMS STRAWBERRIES

Sims High Yielding Varieties for Home or Market

PREMIER — A Sure Money Maker Leading Most Popular Early Strawberry

The most valuable, widely planted, early Strawberry; very frost resistant; healthy, strong grower; thrives on many different soils; holds all records for heavy production and big profits. Firm enough for truck shipments and local markets. Our leading variety.

NEW GIANT ROBINSON The Modern Main Crop Berry

The Robinson originated in the heart of the Strawberry growing section of Michigan, and is rapidly growing in popularity throughout the country. Robinson always brings a premium on the market due to its extra large size, scarlet-red color and unusual firmness. The fruit has a delicious, sweet, real Strawberry flavor. It ripens in midseason. Is a vigorous grower, always making a good fruiting row.

midseason. Is a vigorous grower, always making a good fruiting row.

PREMIER AND ROBINSON PRICES — 1-Yr., Heavy, Fibrous-Rooted Plants

| POSTPAID | | | EXPRESS COLLECT | | |

FAIRLAND

Fairland (USDA 3205) just recently released for introduction by U. S. Department of Agriculture, is outstanding in so many fine respects, its paramount feature being **disease resistance**. Healthy, vigorous grower. Heavy dark green foliage protects the flowers borne on short stalks making it **frost resistant, too**. Equals Premier in productivity. Medium large, bright red berries have a glossy finish. Ripen uniformly—a few days earlier than Premier, are somewhat firmer and slightly tart. Excellent for fresh freezing.

Commercial Growers

Write for special prices on quantity lots. All plants guaranteed disease free. State inspected twice during growing season. Grown under irrigation on sandy river bottom soil. All orders filled with plants dug fresh the day order is filled. **GUARANTEED TO PLEASE.**

Long, Fibrous Roots

NEW ARMORE

Most recent introduction by University of Missouri, Blakemore X Aroma cross. Large size, firm fruit, which is dark red all the way through. Even though it is an extra large Strawberry, it does not have a core or cavity in the center. Holds up extra well in shipping. All the flowers will mature fruit, and will hold size well until end of season. Ripens 10 days later than Premier. All reports from growers are very enthusiastic. We believe this berry will become a great commercial variety.

NEW STREAMLINER

The Sensational Everbearer

A new everbearer that has everything! Enormous size, beautiful coloring, good flavor, excellent shipping qualities and a good producer. It is claimed to be the largest berry of all the everbearers. Berries are almost round, glistening scarlet color and are sweet as honey—full Strawberry flavor. No green tips, for it ripens into a beautiful, rich red all at one time. Its firm qualities make it an excellent shipper. A wonderful variety for canning, and excellent for freezing. Bears 60 to 90 days after planting, and a fine crop the following June. A sturdy plant with luxurious green foliage. Order early, as our supply is very limited.

✓ SUPERFECTION (Everbearer)

**IT'S NEW— IT'S BEAUTIFUL — IT'S GOOD EATING
PLANT SOME IN SPRING, PICK BERRIES FROM
LATE SUMMER UNTIL SNOW FLIES**

Originated in Michigan and promises to take the place of many oldtime varieties due to its many excellent characteristics. The plants adapt themselves to any soil without extra care and are free plant makers. The berries are firm, large, round and red throughout, they have a good flavor and a pleasing taste. The berry is firm and does not discolor when taken from the plant.

Chinese Arbor-Vitae

Sims Hardy Decorative EVERGREENS

For Year Round Beauty

All small and medium size evergreens are shipped balled in peat or moss to save on transportation.

GLOBE ARBOR-VITAE. Naturally globe-shaped, shrubby type with broad, green, fan-shaped leaflets. Grows 3 feet tall; light pruning keeps it shapely. Fine for doorway planting, border and corner groups.

Each 2
12 to 18 in.\$2.45 \$4.75

CHINESE ARBOR-VITAE. This Oriental Arbor-Vitae is an introduction from China which has proven very hardy. It has a flat, fan-type leaf with a rich green color. The leaf clusters face outward edgewise. Strong, rapid grower, can be used as windbreak or clipped any shape or size.

Each 2
24 to 30 in.\$3.00 \$5.75

Hicks Yew

JUNIPER GLAUCA HETZL. A spreading type evergreen decidedly blue, rapid in growth, stands shearing well, closely resembles the Pfitzeriana in appearance and growth habits.

Each 2
18 to 24 in.\$4.75 \$8.00

IRISH JUNIPER. Dwarf growing Juniper, erect and slender, formal and columnar in form. Has dense bluish green foliage. Reaches a height of 6 to 7 feet at maturity. Never over 1½ feet in diameter. Most striking spire-like shape of all the evergreens. This column-like Juniper is ideal for gardens, beds and formal grounds.

Each 2
2½ to 3 ft.\$4.25 \$8.00

COLORADO JUNIPER. Dark green-bluish foliage; very dense, compact growth, tall symmetrical form. An excellent many-purpose evergreen. Grows rapidly and is very hardy.

Each 2
2 to 3 ft.\$4.35 \$8.00

ANDORRA JUNIPER. Low growing, spreading dwarf evergreen. Foliage silver-green in spring, turning to rich purple-bronze in fall. One of the easiest evergreens to grow.

Each 2
18 to 24 in.\$5.00 \$9.50

HICKS' YEW (*Taxus cuspidata* Hicksi). Another form of Yew that is very similar to the Irish Yew, but is a much faster grower. The branches ascend almost vertically, generally growing with many stems. Its rich dark glossy green makes it much more attractive than Arbor-Vitae or Junipers.

Each 2
12 to 15 in.\$2.85 \$5.50
18 to 24 in.5.00 9.50

SPREADING YEW (*Taxus cuspidata*). Fine dark green foliage. Short branchlets densely produced. Grows to medium height and may be sheared for a low hedge if desired. Mature specimens bear bright red berries.

Each 2
18 to 24 in.\$5.00 \$9.50

Spiny Greek Juniper

SPINY GREEK JUNIPER. Fine blue foliage. Grows medium height. Ideal for specimen or group planting with larger evergreens.

Each 2
2 to 3 ft.\$3.95 \$7.50

PFITZER JUNIPER. One of the most popular type evergreens. Beautiful dark green foliage. Succeeds almost anywhere.

Each 2
15 to 18 in.\$2.75 \$5.30
18 to 24 in.5.00 9.50

DWARF ALBERTA SPRUCE. This is one of the most unusual evergreens. It is of extremely close pyramidal growth, thickly covered with short, close-set, twiggy branches, and clothed in grass-green leaves. It is very hardy, and prefers a shady, moist location. Very good for low plantings, terraces, rock gardens, etc.

Each 2
12 to 18 in.\$4.25 \$8.00

Dwarf Alberta Spruce

SIMS EVERGREEN GUARANTEE

We guarantee our evergreens to be the quality represented and to reach you in good, live, growing condition. Examine them carefully upon arrival. If you are not satisfied, return at once and we will replace them free or refund your money.

SIMS HARDY CLIMBING ROSES

BLAZE

An ideal pillar Rose with clusters of brilliant scarlet flowers covering the plant in June and repeating intermittently all season. Holds this bright color in the hottest sun. Plant in good soil as the more it grows, the more it blooms. If you cut off the old flowers, new bloom shoots will grow from the first eye below the old flower clusters.

PAUL'S SCARLET

Large, vivid scarlet-red, semi-double flowers freely produced in clusters on much-branched canes. It is a strong grower and very hardy; healthy foliage. The very best in climbing Roses.

CLIMBING TALISMAN

(Everblooming). Rich yellow-orange buds open into large blooms of salmon-orange shaded with red and gold. Very fragrant. Vigorous grower with long-stemmed buds and flowers.

NEW DAWN

Covered each spring with masses of fragrant blush-pink flowers, it continues to bloom until the first hard frost. Very vigorous and hardy, too.

CLIMBING P. S. DUPONT

The climbing form of this shining yellow Rose, long famous for its bud form, has fast become a favorite in many Rose gardens. It will produce hundreds of magnificent blooms in the spring, each one reflecting the golden sunshine, fine for cutting.

FLORIBUNDAS

Fine for Borders and Beds

RED PINOCCHIO. (Pat. No. 484.) The 3½-inch flowers are borne in large, long-lasting clusters. Color is rich carmine, non-fading. Each \$1.50; 3 for \$3.90.

RED RIPPLES. Flowers semi-double, open, slightly fragrant, oxblood-red to carmine. Each \$1.25; 3 for \$3.20.

FLORADORA. Sparkling coral-orange-red. Prolific continuous bloomer, with best bloom in early June and late fall. Bush 2½ to 3 ft. Each \$1.25; 3 for \$3.20.

SUMMER SNOW. (Pat. No. 416.) The most prolific of white Floribundas with great "drifts" of beautiful large clusters like mounds of snow. Each \$1.50; 3 for \$3.90.

MA PERKINS. (Pat. No. 1143.) 1953 All-America Winner. Translucent coral touched with yellow at the base in the bud stage, a glowing coral-shell-pink when in bloom. Each \$2.25; 3 for \$6.00.

FASHION. (Pat. No. 789.) Brilliant, luminous coral flowers are overlaid with gold, enticing "old rose" fragrance. Blooms continuously from June until frost. Each \$2.00; 3 for \$5.00.

GOLDILOCKS. (Pat. No. 672.) Rich golden yellow, buds are ovoid in shape, long lasting, hardy and vigorous. Each \$1.50; 3 for \$3.90.

EVERBLOOMING POLYANTHAS

BABY LILLIAN. Always covered with clusters of rich orange, perfect buds. Very dainty, with fine cut foliage.

GOLDEN SALMON. A vivid salmon colored, heavy blooming variety. Has great masses of bloom all summer and continues until ground is almost frozen.

IDEAL. The deep black-red Baby Rambler. Blooms so profusely it hides the leaves. Fine for filling stations, beds and cemeteries.

POLYANTHA PRICES
Each \$1.25; 3 for \$3.20.

PATENTED
ROSES*

FIRST LOVE (Above). (Patent No. 921.) Buds like these long, slender beauties of dawn-pink flushed with deeper pink are enough to sell any Rose. Here you can give your customers an added bonus in the big vigorous plant which blooms to beat the band. Each \$2.25; 3 for \$6.00, postpaid.

MIRANDY. (Patent No. 632.) First place winner of All-America Rose competition for 1945. A strong, free branching plant producing large, long-pointed ovoid buds of rich dark red with black shadings, opening to Chrysanthemum-red. The flower of 50 petals displays new beauties of form and is long lasting. Marvelously fragrant. Each \$2.25; 3 for \$6.00, postpaid.

A.A.R.S.
WINNERS

←
CHRYSLER IMPERIAL. (Patent No. 1167.) Pictured at left. Unmatched by any other red Rose. Its vivid, rich tones of crimson are enhanced by darker overtones of glowing oxblood-red. Long, tapering buds on sturdy stems. Very hardy. Each \$2.75; 3 for \$7.20, postpaid.

→
PEACE. (Patent No. 591.) Ovoid buds are golden yellow etched with pink as they open, color changes from canary-yellow to pale golden, iridescent cream. Petals are edged with apple-blossom-pink that deepens as the flower slowly opens to glorious 5-inch blooms. A.A.R.S. Awards for 1946. Each \$2.50; 3 for \$6.60.

TALLYHO. (Patent No. 828.) This All-America Winner for 1949 has everything—form, color, fragrance and vigor. The color on the inside of the petals is a delightful shade of soft pink, while the reverse side is a brilliant crimson. Vigorous, hardy and free blooming, it is the kind of a Rose planters are always looking for. Each \$2.00; 3 for \$5.25.

MOJAVE. (Patent No. 1176.) NEW A.A.R.S. Award Winner. A Charlotte Armstrong cross retaining many of the fine plant characteristics of its parent along with the slender bud of that variety. The color is a blend of salmon, apricot and orange, and occasionally in cool weather the salmon changes to red blended with the other two colors. Each \$3.00; 3 for \$7.95, postpaid.

PURPLE FRINGE (Smoke Tree)

This makes a magnificent large shrub, up to 10 to 12 feet tall, around 6 feet wide. In July-August it is covered with feathery flowers like a cloud of lilac-purple smoke. It has a very distinctive, shiny green foliage which colors beautifully in the fall. It is a very unusual shrub which should be given room to develop and it will become more showy and attractive each passing year.

2-3 ft. Each \$1.95

Thundercloud

Red Flowering Peach

SIMS ORNAMENTAL TREES

*They Add Extra Value To Your Home.
Plant Them For Enduring Beauty.*

ELEY FLOWERING CRAB

This beautiful attractive Crab has reddish foliage in spring, with masses of single pink flowers followed by the showy red fruit. Trees are very hardy.

Each 2
4-5 ft. \$2.25 \$4.30

Eley Crab

HOPA FLOWERING CRAB

Beautiful bright red flower buds opening into fragrant pink flowers are produced on this popular low growing ornamental tree. Beautiful foliage is maroon colored. In mid-summer small red Apples are produced which make very fine jelly. Trees are hardy, thrive in any soil.

Each 2
4-5 ft. \$1.95 \$3.75

THUNDERCLOUD (Purple-Leaved Plum)

We consider this new variety an improvement over the more common types, particularly as to color. The foliage is a bright, rich purple which holds up throughout the season. Thundercloud makes a fine contrast among other trees and shrubs. Try a planting this spring.

Each
4-5 ft. \$1.85

RED FLOWERING PEACH Symbol of Spring (Earliest to Bloom in the Spring)

As one eagerly waits for spring, Red Flowering Peach bursts forth with countless rosy blooms that appear along the numerous, wide spreading branches; so thick are the flowers that the tree appears as a small, red cloud. It is one of the most attractive of the low-growing, flat-topped trees, attains a height of about 15 feet at maturity. Flowers appear before the tree leafs out in spring. Due to the extreme hardness of the wood, the tree is usually very late in leafing out.

Each
3-5 ft. \$1.65

MIMOSA Beautiful - Distinctive

A beautiful tree with tropical-like foliage. Its feathery foliage forming an umbrella-shaped top, which is of a beautiful light green and in summer it is covered with a profusion of pink, fluffy blossoms. Each 4-5 ft., postpaid \$2.25

Crimson King Maple

New CRIMSON KING MAPLE

(Plant Pat. No. 735)

Truly the best Red Maple grown. A great improvement over Schwedler's Purple Leaf Maple. In the spring the foliage is a much richer red and Crimson King carries this deep red foliage through the entire season. Very hardy and easy to grow. Reaches the height of approximately 50 feet at maturity.

Each 2
3-4 ft. \$3.50 \$6.50

SIMS ARISTOCRATIC and

SOFT MAPLE

A beautiful fast growing Maple, with compact, sturdy branches and large, dark green leaves. One of the best.

| | Each | 2 |
|-------------------------|--------|--------|
| 4-5 ft., branched | \$1.50 | \$2.75 |
| 5-6 ft., branched | 1.75 | 3.25 |
| 6-8 ft., branched | 2.25 | 4.25 |

NORWAY MAPLE

Typical Maple leaves, large and bright. Green fading to gold in the fall. Growth is fast; branches and foliage are thick and compact. Attains a height of 50 feet when full grown. Norway Maples are at home in the mountains, but will thrive at any elevation or on any soil in this country.

| | Each |
|-------------------------|--------|
| 5-6 ft., branched | \$2.50 |
| 6-8 ft., branched | 3.25 |

Soft Maple

Thornless Honey Locust

DOLGO CRAB

Here is the finest of the Crab Apples—an exceedingly lovely ornamental fruit tree that is not too large to be planted in a yard. It is a beautifully shaped tree that in the spring is covered with a cloud of pinkish blossoms, and later with brilliant flaming red fruit. The fruit jells perfectly—makes a clear, red jelly of delicate, delicious flavor. The Dolgo Crab is a strong, small tree that resists disease and grows rapidly.

| | Each |
|-------------------------|--------|
| 3-4 ft., postpaid | \$1.75 |

WHITE CLUMP BIRCH

A rare form of the beautiful European White Birch. Growing in clumps of 2 or more trunks on one root system. The bark turns white after two or three years, and stays white winter and summer. Beautiful when interplanted with evergreens. Grows 25 to 30 feet tall and are perfectly hardy. 3 to 5 ft.

| | Each |
|----------------------|--------|
| 2-trunk clumps | \$3.00 |
| 3-trunk clumps | 3.25 |

EUROPEAN MOUNTAIN ASH

A real ornamental tree, has white flowers in May and June, followed by loads of scarlet berries that stay on till after Christmas.

| | Each | 2 |
|--------------|--------|--------|
| 4-6 ft. | \$2.25 | \$4.25 |

CUT-LEAF WEEPING BIRCH

Beautiful white bark with weeping branches and dainty lace-like foliage. Not too large for lawns or gardens.

| | Each |
|-------------------------|--------|
| 6-8 ft., branched | \$5.75 |

THORNLESS HONEY LOCUST

The Thornless Honey Locust is one of the best trees for the western part of our Great Plains Region. It is extremely hardy, drought resistant and seems to thrive in either poor or rich soil. It is rapid growing and develops into a large, stately tree with dark green, luxuriant foliage. Its dark colored branches are strong and resistant to storms. Has few insect enemies and is not affected by sudden freezes.

| | Each | 2 |
|-------------------------|--------|--------|
| 4-5 ft., branched | \$1.95 | \$3.75 |
| 5-6 ft., branched | 2.25 | 4.30 |
| 6-8 ft., branched | 2.95 | 5.50 |

Pin Oak

Tulip Tree

Weeping Willow

Dwarf Fruit Trees

DWARF APPLE TREES

Dwarf Apple trees are in great demand by the grower with little space. These trees are about 8 to 12 feet at maturity, but will produce the same large size fruit as the standard trees. They often start bearing the second year after planting.

Dwarf Apple Tree

Dwarf Pear Tree

DWARF PEAR TREES

Bear full sized, delicious fruit, the same as standard varieties. Often start to bear the year after planting; always produce a full crop. Ideal for the home garden and growers with limited space. Trees are very ornamental in spring with their abundance of creamy white, fragrant blossoms. Plant as close as 5 feet apart. They seldom grow more than 6 to 10 feet tall.

Varieties:

Bartlett Seckel

SAPA DWARF PLUM

Red-fleshed, medium sized Plum; deliciously sweet juice. Enormous cropper even in the coldest climates. Fruit firm and freestone, good for canning and shipping. Trees have dwarf growing habit. Often start to bear the year after planted. For best results plant two trees.

3-4 ft. trees \$1.45 \$2.80 \$5.25

DWARF HANSEN BUSH CHERRY

Grows bush-like, 4 to 5 feet high. Bears almost as much fruit as a large Cherry tree, no waiting for fruit. Bears next year after setting. This new strain makes it even better, fresh, canned or preserved. Very hardy, stands heat and drought and intense cold.
